2628

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

1. Applicant's amendment of 06/11/07 has been fully considered in preparing this Office Action.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kashiwagi in view of Negishi et al.

With respect to claim 1, Kashiwagi teaches the claimed complexity calculating means for calculating complexity when displaying said content based on said plurality of objects, at column 9 lines 18-51; and control means, at column 4 lines 48-55, for suppressing display of part of the objects included in said content based on said calculated complexity, column 9 lines 18-51, said priorities, at column 10 lines 63-64, and an upper limit of processing capability of the apparatus, at column 5 lines 52-60.

Negishi et al. teach the claimed plurality of objects being a character, image and graphic symbol, at paragraph 2; and a priority in display assigned to each of the objects, at paragraphs 76 and 90-92.

Claim 2 further requires said content includes animation formed of a plurality of frames, said complexity calculating means calculates complexity in display for each of said plurality of frames, and said control means performs control of display of each of said plurality of frames, at column 2 lines 7-11, column 6 lines 1-14 with the teaching of moving picture information, frames being inherent in moving picture (animation) information.

Claim 3 is similar to claim 1 but requires functions. Kashiwagi teaches this at column 9 lines 18-51, at column 2 lines 21-27, at column 2 lines 58-64

Claim 4 is similar to claim 2 and rejected under similar rationale.

Claim 5 is similar to claim 1 and rejected under similar rationale.

Claims 6-17 require features previously addressed in the rejections of claims 1-5 and are rejected under rationale previously provided for similar respective features.

4. Applicant's arguments with respect to claims 1-17 have been considered but are moot in view of the new ground(s) of rejection.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Almis R. Jankus whose telephone number is 571-272-7643. The examiner can normally be reached on M-F, 6:30-3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Razavi can be reached on 571-272-7664. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
